Score Range	Zone	What It Means
90 - 110	The 'Unicorn' Zone	This is rare. Prioritize this connection—it has high long-term potential.
70 - 89	The 'Workable' Zone	Good foundation, but check the low scores. Are they 'dealbreakers' or just areas for growth?
Below 70	The 'Re-Evaluation' Zone	If single: This might be a sign to keep looking. If partnered: You may be settling for less than you need.

Love is complicated. Clarity shouldn't be.

Sometimes, low scores aren't a sign to leave—they are a sign to learn. Whether you are navigating modern dating burnout or trying to fix a communication breakdown in your marriage, we can help.
